DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed over the prior art of record.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is that the prior art neither teaches nor fairly suggest a method for fabricating non volatile memory as presented in independent claim 1, a method for fabricating a nitride read only memory as presented in independent claim 2, and a method for fabricating a read only memory in independent claim 12. Major emphasis is being placed upon the provisions of "*placing the dielectric layer under the gate conductive layer' forming a drain line as a buried bit line, forming a stacked gate structure wherein the patterned silicon layer serves as a word line (claims 1, 2, and 12)* ", in combination with other limitations of said claims and their dependent ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
